FIRST CYCLE OF Coding Descriptive ideas/comments/keywords in sample of 10 randomly chosen ATHLETE transcripts	A1	A2	A3	A4	A5	A6	A7	A8	A9	A10
motivation		*							*	
inspiration		*								
tiredness		*								
exhaustion		*						*		
weekends used to complete school work		*								
long hours dedicated to homework		*							*	
no social life		*	*	*						
Compromise		*								
spares in school day		*	*	*					*	
Relaxation		*		*					*	
school being helpful		*							*	
high enrolments of high performance athletes		*								
willingness of teachers to help		*								
email teachers for missed work and days away		*						*	*	
caring and understanding teachers		*		*					*	
availability of help		*								
convenience of help		*								
handing in assignments		*								
non-completion of homework		*								
avoidance of homework		*		*						
cramming of studies		*								
last minute completion of assignments		*								
organisational skills		*		*				*		
lack of social life		*								
help and support of parents		*	*	*						
aware of needs of athlete		*								
willingness and responsiveness of teachers to assist		*						*		
diminish amount of homework		*								
complete only essential homework and subjects		*	*	*				*		
realisation of time limit in sport		*								
support network		*								
options to drop subjects		*								
communication to school about high performance sport commitments		*						*	*	
maintenance of body				*						
lack of class time			*	*						
extra tutoring				*						
lack of recognition of sport as a career			*	*						
VPR option			*	*						
loss of school friends			*	*						
backup plan for tertiary studies				*						
location based sport				*						
reduction to 5 subjects for OP				*						
heavy training schedule				*				*		
adult squad members				*						
fatigue and recovery awareness				*						
sacrifices			*	*				*		
time management and allocation			*	*				*		
pressures				*				*		
limit friends to training members				*				*		
decisions				*						
flexibility			*	*						
confidence			*	*				*	*	
planned schedule for schoolwork				*				*		
healthy lunches				*						
balance sport and schoolwork		*	*	*						
prioritisation				*					*	
over focussing on sport				*						
aware of nutrition and fitness				*				*		
misconception of sport being only a lifestyle choice			*	*						
mindset of high performance athlete				*				*		
home schooling as an option			*							
scheduling of training and school day			*					*		
focus			*							
role model in parents			*							

life choice			*							
holistic support of home schooling			*							
lack of team work			*							
respect			*							
deep learning and understanding			*							
efficiency of home schooling			*							
two different environments			*							
struggle of the long training hours			*					*		
physical demands on body			*							
mental strain			*							
stress of being pushed			*					*		
plan of schedule			*							
more caring and understanding teachers			*							
high achiever								*		
teaching of discipline habits								*		
struggle of being unaware of the guidelines								*		
no directives								*		
one way communication								*		
requirements and benchmarks								*		
young age of competitors in high performance sport								*		
notification from school teachers of slipping grades								*	*	
goal setting								*		
burn out and drop out								*		
absence of the fun element								*		
bullying								*		
isolation and solitary of the young elite athletes								*		
slower pace of development in high performance sport								*		
time poor								*		
keeping athlete grounded								*		
non-recognition and acknowledgement of sport								*		
coping skills				*				*		
gender bias of particular sports								*		
lack of elite coaches in schools			*					*		
provision of laptops									*	
identification of athletes who may be struggling								*	*	
availability of support of students through Blackboard portal									*	
onus on athlete to use support provided									*	
reassurance									*	
life balance of social media outlets e.g. Facebook, etc.									*	
acknowledgement of high performance athletes achievements									*	
recognition of athlete's achievements									*	
non-compulsory attendance of school camps									*	
know how to play the school structured system									*	
sibling rivarly									*	
resentment from other siblings									*	
everything offered in one location at school									*	
emotional support									*	
travel time									*	
regional athletes to have support from services from the university									*	
social habits and skills									*	
stepping outside of the athlete's comfort zone									*	
social adaption									*	
core PE skills										
school as a platform to elite sport level										
facilities and accreditation of teachers										
rivalry and conflict between school and club representation individual										
seeking benefits for being an elite athlete										
parental pressures										
even playing rules for all										
school image pressures										
finances				*						
lack of opportunities for all athletes in the TID progs										

lack of funds and time allocation for PE teachers to be involved in sport										
sport high schools as an option for athletes										
attitude										
pressures of high performance coaches										
broaden skill base of young athletes										
role models in experienced high performance athletes procrastination										
* Indicates if the athletes mentioned the ideas/comments/Keywords in their transcripts in the first cycle of manual coding										

SECOND CYCLE of coding: TOPICS	**Final DATA REDUCTION... THEORIES**					
	Theories	to create policies and change				
	Support needed for the hyphenated-self with dual endeavours!					
Mental issue-Motivation	confidence					
Relaxation struggles with study and training pressures	focus					
Physical issue-inspiration	fatigue and recovery awareness					
Tiredness/fatigue						
exhaustion						
heavy training schedule	Impact of Struggles and challenges of pressures to perform of the long training hours				lack of social skills	
social issues/sacrifices- BULLYING no social life	pressures					
compromise	limit friends to training members					
loss of school friends	decisions					
adult squad members	coaches rapport					
Sacrifices **School issues**						
timetabling/scheduling						
spares in school day						
planned schedule for schoolwork						
school support- support network school being helpful						
willingness of teachers to help						
email teachers for missed work and days away						
caring and understanding teachers						
availability of help	Empathy greater amount of caring and understanding teachers					
convenience of help						
aware of needs of athlete						
willingness and responsiveness of teachers to assist						
parent support/support network						
help and support of parents						
respect						
Assignments						
handing in assignments						
last minute completion of assignments						
organisation						
organisational skills						

4 O'Neill
QDR:10085

transition of sport						
schooling options/flexibility						
options to drop subjects						
VPR option/need	Flexibility					
	home schooling as an efficient option					
	holistic support of home schooling					
reduction to 5 subjects for OP						
Recognition-lack of recognition of sport as a career						
misconception of sport being only a lifestyle choice						
time						
time management and allocation						
procrastination						
life balance						
balance sport and schoolwork						
prioritisation						
over focussing on sport						
life choice						
mindset						
mindset of high performance athlete						
role models						
role model in parents						
deep/surface learning						
deep learning and understanding						
Surface learning						
cramming of studies						
stress						
stress of being pushed						
individual plans for athletes						
plan of schedule						
scheduling of training and school day	WHO CAN HELP? Empathy care and support of coaches, mentors teachers family friends peers					
lack of team work						
communication to school about high performance sport commitments						
Nutrition						
healthy lunches						
aware of nutrition and fitness						
injury prevention						
maintenance of body
